

TAMPER PROOF HANDWHEEL FOR DONKIN 555 GATE VALVES

555/883-001

Tamper Proof Handwheel

Designed specifically for use with Donkin Series 555 gate valves fitted in areas that can be accessed by the public. The Donkin Anti-Tamper device allows the valve to be closed off in an emergency and only switched back on by authorised gas personnel using an approved tee key. To suit DN50-200 valves.

Product description:

Anti tamper device for use with Donkin Series 555 gas gate valves to allow the valve to be closed off in an emergency.

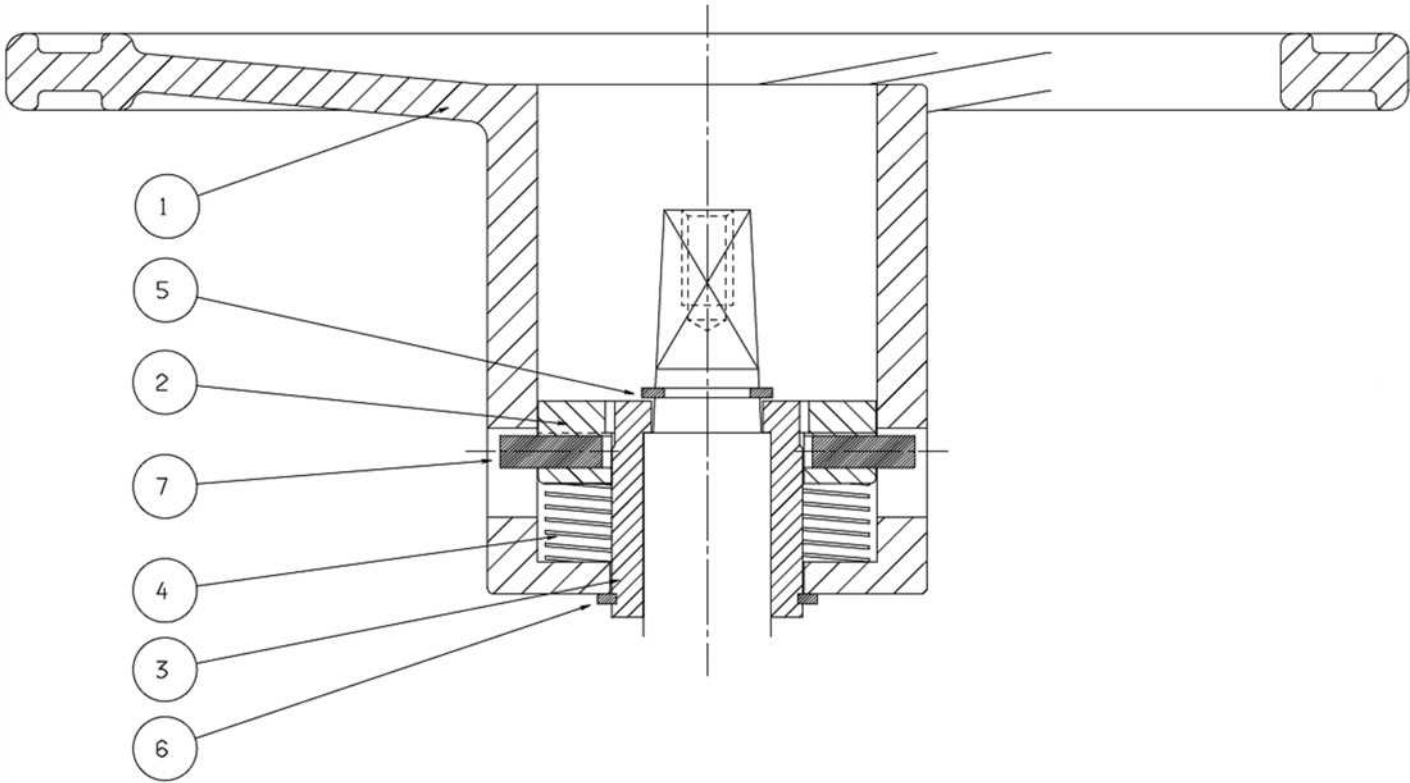

Features:

- Easy to fit
- No special tooling required
- Robust design
- Works in any orientation
- Simple ratchet design
- One size fits all valves
