

AVK KNIFE GATE VALVE, PN10

702/30-103

Quick operation lever, replaceable top packing gland

AVK lug/wafer knife gate valves are bi-directional with full and plane bore. The protected sealings and high quality materials bring about a great performance and a long service life. AVK knife gate valves are available with lever, non-rising stem and handwheel, rising stem and handwheel, pneumatic actuator, ISO top flange for actuator or complete with electric actuator.

Product description:

Knife gate valve with quick operation lever for wastewater treatment 0°C to +80°C

Design standards:

- Face-to-face dimension according to DIN/EN 558-1, series 20 (K1), up to and incl. DN 350
- Flange drilling to EN1092, PN10/16

Test/Approvals:

- ISO 9001 certified - SAI Global Quality
- ISO 14001 certified - SAI Global Environment

Features:

- Replaceable top packing gland enables sealing replacement without disassembly of the valve
- The valve is self cleaning as particles will be pushed off the gate when opening the valve. For extra protection of the packing gland a scraper is available as an optional extra.
- Bi-directional, can be installed independent of the flow direction
- Full bore with no reduction of the flow
- Plane bottom prevents sediment from being accumulated
- No cavity in the body and thus no risk of clogging
- U-shaped one-piece NBR sealing between the body parts makes up for tolerances in coating and casting. It is reinforced with a steel insert to protect it from being damaged during operation.
- Encaged stem with yokes prepared for mounting of micro switches and inductive sensors
- Stem and gate connection is secured with self-locking nuts
- Supports integrated in the body casting protect the gate from deflecting under pressure
- Body of ductile iron with 100-150 µm UV resistant polyester coating, RAL 5017. Optionally of acid-resistant stainless steel or duplex
- Yokes of carbon steel with coating 100-150 µm of plascoat PPA 571 Aqua
- Gate, stem, bolts and nuts of acid-resistant stainless steel
- Washers under the bolts protect the coating
- Slim design and low weight
- Approved according to the 97/23/CE European Pressure Equipment Directive
- Approved according to the 94/9/94EC, ATEX Directive
- Optionally in higher PN class

AVK KNIFE GATE VALVE, PN10

702/30-103

Quick operation lever, replaceable top packing gland

Component list:

1. Plate	Carbon steel	9. U-shaped seal	Steel / NBR
2. Stem	Stainless steel AISI 316	10. Bolt	Stainless steel A4
3. Bolt/nut	Stainless steel A4	11. Lever	Carbon steel
4. Top packing gland	Ductile iron GJS-400-15	12. Guide	Carbon steel
5. Bolt	Stainless steel A4	13. Drag link	Carbon steel
6. Packing	NBR + PTFE	14. Lever bracket	Carbon steel
7. Body	Ductile iron GJS-400-15	15. Lock	Steel
8. Gate	Stainless steel AISI 316		

Components may be substituted with equivalent or higher class materials without prior notification.
